XT, KEEP EVOLVING:

THE NEW TECHNOLOGY ENHANCES THE PERFORMANCES OF MAGNETIC LOCKS.

AGB has launched the project of technological innovations to improve the performances of the magnetic locks.

In a global market, the maximum adaptability to extreme atmospheric elements and difficult installations is the key of Your and our success.

POLARIS **2XT** and REVOLUTION **XT**: the smart magnetic locks that win also against the most difficult weather conditions.

MINIMAL PLUS **XT**: the flexible striker with wide adjustments never seen before. For a perfect installation, without defects.

EASY-FIX **XT**: the adaptable striker for an easy installation.

POLARIS 2XT AND
REVOLUTION XT:
INCOMPARABLE
PERFORMANCES
FOR EXTREME
CONDITIONS

THE MOST SUITABLE LOCKS FOR THE MOST DIFFICULT WEATHER CONDITIONS

The new locks **Polaris 2XT** and **Revolution XT** were created with innovative materials in order to ensure the lock functioning even with extreme weather conditions (humidity, dust, chemical agents).

Revolution XT

Polaris 2XT

RANGE IMPROVEMENT

FOREND IN STAINLESS STEEL

Polaris 2XT with forend in stainless steel is the everlasting magnetic lock. As concerns the rust resistance, it is second to none.

Mediana Polaris bordo tondo con chiave, interasse 90, frontale 18 mm

Descrizione

Serratura da incasso a movimento magnetico con scrocco centrale in poliammide, in finitura.
La chiave blocca lo scrocco che funge anche da catenaccio, lasciando però libera la maniglia.
La serratura non presenta sporgenze sul frontale grazie allo scrocco completamente ritratto all'interno della cassa. Frontale in acciaio da 18 mm con bordo tondo, entrata da 50 e 60 mm. Interasse 90 mm.
Perfetta intercambiabilità con Mediana Evolution che permette la sostituzione negli scassi già esistenti. Versione con chiave in 4 cifrature miste. Cassa in acciaio con fori per il fissaggio delle maniglie mediante viti passanti. Scrocco retraibile anche mediante la chiave.

Utilizzo

Lo scrocco magnetico e simmetrico rende la serratura ambidestra.

Fissaggio

Predisporre sul pannello una cava ed una fresata con le dimensioni riportate nel disegno. Fissare la serratura con due viti 3,5x20 mm.
NB. Ogni serratura è fornita con una chiave. Sono disonibili, a richiesta, confezioni per industria con cifratura unica.

Specifiche d'ordine

Materiale	Articolo	
ACCIAIO	B04101.50.XX	4
	B04101.60.XX	4

NB. Riferirsi al listino in vigore per verificare la disponibilità delle finiture.

MINIMAL PLUS XT

EXTREME ADJUSTMENTS, PERFECT CLOSING

The installations on-site aren't a problem anymore!

Minimal Plus **XT** offers a range of extremely wide adjustments, to allow a correct door closing even when the installations are complicated. Thanks to the notched part, Minimal Plus **XT** is adjustable up to $\pm 1,5$ mm obtaining several intermediate positions. If 3 mm aren't enough, turning the cover tray, you can avail other 1,5 mm.

The producer is free of after-sales requests, due to the most common problems during installation.

UP TO 4,5 MM
ADJUSTMENT

Wide adjustments
even when the striker
is already installed.

Minimalist and linear design, the Minimal Plus **XT** striker is very discreetly installed on the door frame.

Fixed by means of the
patented AGB system with
3,5 mm screws hidden within
the striker niche.

Polaris 2XT & Revolution XT

 Example of rebated application with
Mediana Evolution, Polaris 2XT,
Revolution XT

EASY-FIX XT

EXTREME VERSATILITY, EXTREME FREEDOM

Easy-Fix XT has been designed to let maximum freedom to door producers and installers.

The striker was born to offer wide tolerances during the cover tray milling. The frontal insertion allows to assemble the cover tray after the plate installation.

In the surface mounted version, the wide covering edge offers great installation freedom.

Easy-Fix XT was created to be installed even on-site, just milling the frame!

Adjustments

1,5 mm for flush doors
3 mm for rebated doors

1,2 mm thickness
for flush doors

2,2 mm thickness
for rebated doors

1,2 mm thickness
for rebated doors

The clip system blocks the latch cover tray on the plate.

Surface mounted plate

Easy-Fix XT, 1,2 mm

Thanks to a reduced thickness, Easy-Fix XT 1,2 mm is suitable for the surface mounting without notching the metal part on the frame.

Available for flush doors with 35-40-44 mm thicknesses and for rebated doors.

Example of flush application with Mediana Evolution, Polaris 2XT, Revolution XT

Example of rebated application with Mediana Evolution, Polaris 2XT, Revolution XT

Embedded plate

Easy-Fix XT 2,2 mm

It was created to face different automation solutions. It is the most suitable for the requirements of high industrialized door producers.
